CONFERENCE PROGRAM / PROGRAMME DU CONGRÈS

THURSDAY, MARCH 21 / LE JEUDI 21 MARS

17:00 – 19:00 **Registration / Inscription**

FRIDAY, MARCH 22 / LE VENDREDI 22 MARS

07:00 – 08:00 **Registration / Inscription**

08:00 – 10:30 **Opening Ceremonies /
Cérémonies
d'ouverture**

Featuring keynote address by Dr. Nadine Caron who currently resides in Prince George, BC, where she provides surgical oncology care for those that call rural and remote Canada home. Nadine is also an Associate Professor in the UBC Faculty of Medicine's Department of Surgery where she teaches in the Northern Medical Program.

11:00 – 12:30 **ORAL ABSTRACTS / PRÉSENTATIONS ORALES**

12:30 – 14:00 **ROUNDTABLE LUNCHEON (Session A) /
DÎNER-CAUSERIE (séance A)**

14:00 – 15:30 **CONCURRENT SESSION B /
SÉANCE CONCOMITANTE B**

B1 **Intergenerational health interventions /
Interventions intergénérationnelles en santé**

Stopping Gestational Diabetes in Daughters and Mothers (SGDM): A Gestational Diabetes Risk Reduction Education Program for American Indian and Alaska Native Girls and their Adult Female Caregivers - Strategic Plan for Dissemination

*Kelly R. Moore, MD, FAAP
(Muscogee (Creek) Nation of Oklahoma)*

Towards Intergenerational Health: Programming for Young Native Girls and their Female Caregivers

Jaime Begay, BUS (Navajo)

B2 **Fetal Alcohol Spectrum Disorder / Trouble du
spectre de l'alcoolisation fœtale**

Re-balancing the Wheel--Two-Eyed Seeing in the Diagnosis, Prevention and Intervention of FASD and related disorders

Lori Vitale Cox, PhD

The NB Fetal Alcohol Spectrum Disorder (FASD) Dream Catcher Service Delivery Model of care

Annette Cormier, MSN

*L. Cynthia Sewell, BSW (Mi'g Maq First Nation
Member of Pabineau First Nation NB)*

B3 **Engaging communities in research /
Participation des communautés à la recherche**

Engaging Indigenous communities and stakeholders in systematic reviews

Natalie Strobel, PhD

Successes and challenges in engaging and recruiting participants for a longitudinal cohort study to explore the health and well being of Aboriginal adolescents and young people

Sandra Eades, BMed, PhD (Australian Aboriginal (Noongar))

Terms of Engagement: Strategies for Ensuring Community-Determined, Culturally Safe Research

*Alex M. McComber, DSc. (Hon.) M.Ed.
(Kanien'kehá:ka (Mohawk))*

B4 **Mitigating youth violence / Réduire la
violence chez les jeunes**

Clear and Present Danger: Recognizing Youth Violence

Shaquita Bell, MD (Cherokee)

Exploring the Pathways of Contact with Juvenile Justice in Western Australian Aboriginal and Torres Strait Islander children and Young People

Jocelyn Jones, PhD (Nyoongar)

B5 **Childhood injury and maltreatment /
Blessures et maltraitance chez les enfants**

Preventable Childhood Injuries in Primary Care: Inflicted or Not?

John Ratmeyer, MD, FAAP

Umingmak Child Abuse Centre--how to make it work in rural/remote arctic area

Amber Miners, MD, FRCPC

16:00 – 17:00 **PLENARY SESSION / SÉANCE PLÉNIÈRE**

Identity as a social determinant of health

This session will explore how various expressions and understandings of identity—whether through cultural, gender or sexual orientation—affect child development, health, and Indigenous people's experience of the health care system.

Shaquita Bell, MD (Cherokee)

Ryan J.P. Giroux, MD (Métis)

17:00 – 18:00 **POSTER SESSION I / SÉANCE D'AFFICHES I**

SATURDAY, MARCH 23 / LE SAMEDI 23 MARS

08:00 – 09:00 **POSTER SESSION II / SÉANCE D’AFFICHES II**

09:00 – 10:00 **PLENARY SESSION / SÉANCE PLÉNIÈRE**

Harnessing Indigenous Youth Innovation to Solve Pressing Global Health Problems

Indigenous youth are strong, resilient, engaged, and acutely aware of the political and social tides shaping our world. Some are assuming leadership roles in their communities and making positive change. This panel of Indigenous youth from the U.S. and Canada will share their stories about working to understand some of the most pressing health issues facing our communities today.

Nachya George, BA (Yakama Nation)

Danielle Antelope (Eastern Shoshone Nation and Blackfeet Nation)

Hamilton Seymour (Nooksack Indian Tribe & Stzu'minus First Nation)

Ryan J.P. Giroux, MD (Metis)

10:30 – 12:00 **CONCURRENT SESSION C / SÉANCE CONCOMITANTE C**

C1 Traditional approaches to youth trauma / Traumatismes chez les jeunes : approches traditionnelles

Sharing Our Apache Way of Life with Our Grandchildren and Future Generations: The Elders' Resilience Curriculum to Prevent Suicide in American Indian Youth

Victoria O'Keefe, PhD (Cherokee and Seminole Nations of Oklahoma)

Novalene Goklish, MS (White Mountain Apache Tribe)

Healing the Spirits of the Youth: Utilizing Traditional Healing Camps for our Most Vulnerable Relatives

Elicia M. Goodsoldier, BA (Dine' / Spirit Lake Dakota)

Randilynn Boucher-Giago, B.S., M.Ed (Dine' / Sisseton Wahpeton)

C2 Engaging children and youth through technology / Rejoindre les enfants et les jeunes par la technologie

Factors associated with targeted psychosocial and behavioral outcomes among American Indian youth participating in an evaluation of an entrepreneurship education intervention

Francene Larzelere, PhD, MPC (White Mountain Apache Tribe)

Self-reported health outcomes in clinical practice; an example using the ACHWM

Marnie Anderson, BPHE, CSEP-CPT (Ojibway)

Diane Jacko, Hon. BA (Ojibway)

Nancy L. Young, BScPT, MSc, PhD

Using Technology to Facilitate Enhanced Communication: Developing and Testing an Electronic Pain App for Indigenous Youth

Margot Latimer, RN, PhD

Sharon Rudderham, BBA (Mi'kmaw)

C3 Indigenous approaches to parenting / Parentalité : approches autochtones

Indigenous Parenting Resources – A collaborative project to create culturally appropriate, child-centred, respectful public health tools for Indigenous parents and caregivers in Canada

Lisa Murdock, MA (Dené (Chipewyan and Beaver), Katl'odeeche First Nation)

Inunnguiniq: An Inuit Knowledge System for raising Capable Human Beings

Shirley Tagalik, BA, BEd, MEd

C4 Community-school partnerships / Partenariats école-communauté

A School, Tribal, and Clinic-Based Family Support Team

Yolandra Gomez, MD, MPH (Jicarilla Apache)

A Métis family resources centre: Providing culturally appropriate programs and services

Joanne Colliou, ECE III

C5 Environmental health / Santé environnementale

Healthy Homes: Indigenous Communities Working to Improve Household Air Quality

Rosalyn Singleton, MD, MPH

Thomas Kovesi, MD, FRCPC

Erin O. Semmens, PhD, MPH

Indigenous Child Health in Emergencies and Disasters: community perspectives

Darlene Yellow Old Woman Munro, RN (Siksika)

Amber MacLean-Hawes, BSc

Alanna Sylliboy (Mi'kmaq)

12:00 – 13:30 **Lunch on your own / Dîner libre**

13:30 – 15:00 **CONCURRENT SESSION D / SÉANCE CONCOMITANTE D**

D1 Adolescent health promotion / Promotion de la santé des adolescents

Youth-based health messaging: Regaining and reclaiming health in Métis communities

Julianne Sanguins, RN, PhD

Two Spirits Find Resilience from Community and Family Supports in Times of Mental Health Distress

John R. Sylliboy, PhD Student (Mi'kmaq, Millbrook First Nation)

D2 Using creativity to advance health equity / La créativité au service de l'équité en santé

Exploring the strengths and resilience of an Indigenous community through photovoice

Lola Baydala, MD, MSC

Maria Buffalo (Samson Cree Nation)

Melissa Tremblay, MSc (Métis)

Opportunities to address health equity for First Nations, Inuit and Métis children in Canada – An arts-based approach

Margo Greenwood, PhD (Cree)

D3 Preventing childhood obesity / Prévention de l'obésité infantile

Family Spirit Nurture: Preventing Early Childhood Obesity Risks through a Home-Visiting Intervention Delivered by Native American Paraprofessionals to Native American Mothers

Allison Barlow, PhD, MPH

Leonela Nelson, BS (Navajo)

The Chickasaw Nation's Empowered Living Pediatric Clinic and Research

Anne M. Prouty, PhD, L.M.F.T.

Ashley Weedn, MD, MPH, FAAP

D4 Emerging health issues / Enjeux de santé émergents

Adverse Childhood Experiences and the High Rates of Rheumatic Disease In Indigenous People: Are They Linked?

James N. Jarvis, MD (Akwesasne Mohawk)

Cardiovascular Risk Factors and Subclinical Cardiovascular Disease in American Indian Youth

Jason Deen, MD (Blackfeet)

D5 Inuit child and family health / Santé des enfants et des familles inuits

Inuit Early Childhood Development in Inuit Nunangat: A Changing Landscape

Jessica Lyall, MSW (Inuit)

Maria Storr, B.Ed (Inuk)

Karen Beddard, BSc

Jenny Lyall, B.Ed, B.SW (Inuit)

Judy Eecherk (Inuk)

15:15 – 16:15

PLENARY SESSION / SÉANCE PLÉNIÈRE

Transforming health systems for Indigenous children and youth

It's well understood that the conditions in which children are born, grow, live and play—the social determinants—help shape their health outcomes. Indigenous children are also affected by determinants such as cultural continuity, health care systems, colonialism, and social exclusion. Transforming these systems- and societal-level

determinants offers the potential for lasting improvements to persistent health inequities. Speakers will explore the conditions required to bring about such changes, and offer examples of where transformation is under way.

Alika Lafontaine, MD, FRCPC (Cree/Anishinaabe)

SUNDAY, MARCH 24 / LE DIMANCHE 24 MARS

08:00 – 09:00 **PLENARY SESSION / SÉANCE PLÉNIÈRE**

Indigenous children in care: There is a better way

It's been called a crisis, a tragedy, and shocking: Indigenous children are overrepresented in the child welfare system in Canada, the United States, and Australia. The impact on children, families, and communities can be devastating. Placing a child in foster care, away from family and community, is not the only way to ensure they are safe. Indeed, foster care can result in further harm. This session explores alternatives to foster care, including models and approaches that focus on healing families, keeping children in their communities, and honoring Indigenous ways of child care.

Margo Greenwood, PhD (Cree)

Anita Fineday, BA, JD, MPA (White Earth Tribal Nation)

09:00 – 10:30 **CONCURRENT SESSION E / SÉANCE CONCOMITANTE E**

E1 Supporting women in birth / Soutien aux femmes qui accouchent

Cultural Based Health Interventions: Birth Helpers for First Nations Women Who Travel for Birth

Jaime Cidro, PhD (Anishnawbe)

Reclaiming Childbirth in First Nations communities

Melanie Morningstar, BA (Ojibway)

Ellen Blais, BSc, BHSc, AM (Oneida Nation of the Thames, Haudenosaunee)

E2 Measuring progress / Mesurer les progrès

A Two-Eyed Seeing Approach to Selecting Health Indicators for Indigenous Child Health Report Cards: Lessons Learned from Several Indigenous Communities across Ontario

Ghislaine Goudreau, MSc (Algonquins of Pikwakanagan)

Elizabeth Stankiewicz, MSc

Mary Jo Wabano, MA (Odawa)

Jordan's Principle Service Coordination: Preliminary findings from a developmental evaluation

Vandna Sinha, PhD

E3

Clinical care / Soins cliniques

Epidemiology of Tuberculosis in the Indigenous Children in Canada: Implications for Clinicians, Surveillance Systems, and Policy

Ryan J.P. Giroux, MD (Métis)

Promising efforts to improve the oral health of Indigenous children

Robert J. Schroth, DMD, MSc, PhD

Healthy Skin Workshop

Asha Bowen, BA, MBBS, DCH, FRACP, PhD

E4

Innovations in health care delivery / Innovations en prestation de soins de santé

Implementing continuous quality improvement initiatives in primary health care services to improve quality of care for Indigenous children

Karen Gardner, BA, MPH, PhD

Daniel McAullay, PhD (Nyoongar)

Remote Presence Robotic Technology for Rural and Remote Health

Ivar Mendez, MD, PhD, FRCSC, FACS

10:45 – 12:00

CLOSING CEREMONIES / CÉRÉMONIES DE CLÔTURE

CONFERENCE OVERVIEW / PRÉSENTATION DU CONGRÈS

What is the 8th International Meeting on Indigenous Child Health?

The International Meeting on Indigenous Child Health is a biennial event that brings together practitioners, researchers, advocates, community members and others who care about the health of children and youth in First Nations, Inuit, Métis, American Indian, Alaska Native and other Indigenous communities around the world. By sharing scholarly and participatory research findings, and community-based wisdom, the conference is a unique forum for knowledge exchange.

At the end of the conference, participants will be able to:

- Apply new skills, insights, and knowledge about the multiple determinants of health to benefit Indigenous children, youth and communities.
- Increase multisectoral collaboration and partnerships to work towards achieving health equity for Indigenous children, youth and communities.
- Apply an enhanced understanding of culturally competent care in health interactions with Indigenous children and youth.
- Identify strategies for supporting the role of traditional health and healing practices in Indigenous communities.
- Identify the links between the environment and the health of Indigenous children, youth and their families/communities.
- Engage new networks to share best practices and learn from community-based initiatives.

Qu'est-ce que le 8^e congrès international sur la santé des enfants autochtones?

Le congrès international sur la santé des enfants autochtones, qui a lieu tous les deux ans, rassemble des praticiens, des chercheurs, des défenseurs d'intérêts, des représentants de communautés et d'autres intervenants qui ont à cœur la santé des enfants et des adolescents des Premières Nations, des communautés autochtones inuites, métisses, américaines et originaires de l'Alaska, et d'autres peuples autochtones du monde entier. Par la diffusion des résultats de recherches universitaires et participatives et de la sagesse des communautés, le congrès se veut une plateforme unique d'échange du savoir.

Au terme du congrès, les participants seront en mesure :

- de mettre en pratique de nouvelles compétences, de nouveaux points de vue et de nouvelles connaissances sur les multiples déterminants de la santé qui profiteront à la santé des enfants, des adolescents et des communautés autochtones;
- d'accroître la collaboration et les partenariats multisectoriels, afin de travailler à l'atteinte de l'équité en santé chez les enfants, les adolescents et les communautés autochtones;
- d'appliquer une meilleure compréhension des soins adaptés à la culture aux interactions avec les enfants et les adolescents autochtones;
- de définir des stratégies pour soutenir le rôle des pratiques de santé et de guérison traditionnelles dans les communautés autochtones;
- d'établir des liens entre l'environnement et la santé des enfants et des adolescents autochtones, de leur famille et de leurs communautés;
- de mobiliser de nouveaux réseaux pour diffuser les pratiques exemplaires et tirer des enseignements des initiatives communautaires.

Who should attend?

- Paediatricians and family physicians
- Residents and medical students
- Nurse practitioners and physician assistants
- Nurses and other health care professionals
- Clinical researchers
- Tribal, state, and federal public health employees
- Child advocates
- Community leaders/Elders
- Other professionals and family representatives dedicated to working with Indigenous children and families
