

Celebrating Canadian Indigenous Nurses

The Canadian Indigenous Nurses Association celebrates the many nurses of diverse First Nation, Inuit, and Métis peoples of Canada. Your diverse knowledge and gifts provide unique needed perspectives to health delivery services and are greatly appreciated and valued. Your care, expertise, and presence in the health care system and within our communities supports health equity for our peoples.

Acknowledging who we are.

- Champions and beckons of hope to our people
- Knowledge Keepers and the generators of change
- We are the spirit that drives Indigenous health care,
- We are the voices and manifestors of our ancestors' aspirations, hopes and visions.
